

# Rock Cycle Song

(Sing to the tune of "Row, Row, Row Your Boat")

## **SEDIMENTARY rock**

**Has been formed in layers  
Often found near water sources  
With fossils from decayers**

## **Then there's IGNEOUS rock**

**Here since Earth was born  
Molten Lava, cooled and hardened  
That's how it is formed**

## **These two types of rocks**

**Can also be transformed  
With pressure, heat and chemicals  
METAMORPHIC they'll become.**

( Don't forget to sing this as a "Round"; after all, it is the Rock "Cycle"! )
